

RISHABH KUMAR

Technical Lead — Full Stack

Jalandhar, Punjab, India | +91-998-847-0143 | me@thefalcon.dev
thefalcon.dev | github.com/FLCN-16 | linkedin.com/in/rishabh-kumar-flcn16

SUMMARY

Full-Stack Technical Lead with 9+ years building and shipping production web, mobile, and browser-based applications across the stack. Strong in React and Next.js on the frontend, Node.js, Nest.js, Python, and PHP on the backend, with hands-on DevOps experience in Docker, Jenkins, and CI/CD. Open-source contributor to Next.js (vercel/next.js) with merged framework code. Builder of Agentic AI systems using LangChain and Mastra AI, with apps live on the Chrome Web Store and Google Play. Lead engineering teams while staying hands-on across frontend, backend, APIs, and deployment.

TECHNICAL SKILLS

Backend: Node.js, Express.js, Nest.js, Python, Django, Flask, PHP, Laravel, Lumen, RESTful APIs

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3, Vue.js, Astro.js, Solid.js

Databases: MongoDB, PostgreSQL, MySQL, SQL

DevOps & Cloud: Docker, Jenkins, CI/CD, AWS, GCP, Linux, Git/GitHub

Mobile: Flutter, Dart, Cross-Platform Development (iOS & Android)

AI & Agents: LangChain, Mastra AI, LLM Integration, Prompt Engineering, Tool-Calling Pipelines

Architecture & Practice: System Design, API Design, Agile/Scrum, Code Review, Mentoring, Stakeholder Management

PROFESSIONAL EXPERIENCE

Associate Technical Lead

DigiMantra Innovations Pvt. Ltd.

February 2022 – Present

Mohali, Punjab, India

- Lead full-stack architecture and delivery across 2–3 concurrent client projects spanning React/Next.js frontends, Node.js/Nest.js and Python backends, and containerized deployments.
- Technically lead a team of 6 engineers; conduct architecture and API design reviews, review 6–8 pull requests weekly, and set engineering standards across the stack.
- Conducted technical interviews and ramped up 4–6 hires; mentored 10+ junior and mid-level engineers across frontend, backend, and DevOps practices since 2022.
- Own sprint planning, estimation, and delivery across 2–4 week Agile cycles in Jira and Confluence; coordinate with product, design, and QA, and manage stakeholder communication.
- Drive technical decisions on framework migrations, API and database design, performance budgets, and CI/CD tooling for new client engagements.
- Introduced AI-assisted internal tooling (LangChain-based) to accelerate code review and documentation workflows for the team.

Senior Full Stack Web Developer

Erosteps Pvt. Ltd.

March 2017 – February 2022

Jalandhar, Punjab, India

- Built and shipped 8–10 production full-stack web applications, owning both the Vue.js frontend and the Lumen (PHP) and Node.js API layers.
- Designed and implemented RESTful services, database schemas, and server-side business logic; integrated third-party APIs including Stripe, PayPal, Razorpay, and WooCommerce for payments and commerce.
- Built and maintained CI/CD pipelines using Jenkins and Docker, enabling automatic deployments on every passing build and replacing manual release cycles.
- Shipped 2 cross-platform mobile apps to the Google Play Store using Flutter, working across client, API, and data layers.
- Owned backend testing, QA, and pre-release verification for client-facing launches.

SELECTED PROJECTS

Guardian Services — Security Services Platform (Backend-Led)

- Architected and built the platform backend in Python and Flask — designing the data model, REST API, and service-scheduling logic end-to-end.
- Implemented authentication, role-based access control (RBAC), and data encryption for sensitive user and service workflows.
- Owned the full lifecycle from API design through deployment, building service-management and scheduling features.

Study.IQ — EdTech Platform (1M+ Users)

February 2025 – October 2025

- Led the React.js to Next.js migration — porting 30–40 routes, adopting App Router, refactoring to server components, and rebuilding the data-fetching layer for SSR; lifted Lighthouse Performance from ~40 to 75+.
- Integrated Razorpay as the primary payment gateway with Paytm and CCAvenue fallbacks — building webhook handling, retry logic, and failover on the backend — supporting a payment drop-off reduction from 9% to 4%.
- Built Continue Purchase Logic and rebuilt PDP, PLP, and Checkout flows end-to-end — the engineering backbone of a conversion initiative that drove a 9x web conversion lift (1.16% → 11.3%) measured by the product team.
- Implemented frontend SEO architecture supporting 71% organic traffic growth led by the product and SEO teams; redesigned the Homepage and built the Test Series module.

Kanban Tab — Chrome Extension (Chrome Web Store)

Live: <https://chromewebstore.google.com/detail/kanban-tab/hgigmmphphfldiiijfggneighbaiefcm>

Replaces the new-tab page with a unified Kanban board syncing Jira, GitHub, Asana, and Linear in real time. Built end-to-end: Manifest V3 architecture, OAuth 2.0 flows for four integrations, and the real-time sync layer.

GitHub PR Reviewer — Agentic AI System

LangChain and Mastra AI agent that ingests a GitHub PR URL, performs structured code review, and posts inline comments via the GitHub API. Designed the prompt orchestration, tool-calling pipeline, and API integration end-to-end.

Money Hive & Swallow Organics — Flutter Apps (Google Play)

Money Hive: Flutter finance app with multi-wallet data model, on-device AI categorization, CSV/PDF export, and in-app purchase billing. Swallow Organics: Flutter Shopify storefront with full checkout via the Shopify Storefront API. Additional published apps: Dr. Maths, The Maze.

OPEN SOURCE CONTRIBUTION

Next.js (vercel/next.js) — Merged Contributor

PR: <https://github.com/vercel/next.js/pull/36993>

Authored and merged a fix to Next.js middleware error handling (invalid-URI requests returning HTTP 500 instead of 400). Resolved two open issues (#36964, #37025), passed 5 commits of review, merged into canary by maintainer @ijjk. Recognized as a Contributor on vercel/next.js (139k+ stars).

EDUCATION & CERTIFICATIONS

Bachelor of Computer Application

Amity University Online, Noida, India | CGPA 8.31 / 10

Expected 2027

Diploma in Web Designing and Development

GTB Computer Education, Jalandhar, Punjab

2016 – 2017

Certifications: MongoDB Associate Developer — MongoDB (2025) • Mastering the System Design Interview (2025) • Legacy JavaScript Algorithms & Data Structures — freeCodeCamp (2023)
